

Subject: Important Tradition Update: Transition to New Community Management Company

Hello everyone,

On behalf of the Board, I am writing to announce that effective **January 1**, the community will transition to a new management company. Following an extensive evaluation process, the Board voted unanimously to award our management contract to **RealManage**, replacing Kuester.

We are excited about this new partnership and the enhanced services RealManage will bring to our community and the Board.

As with any transition, we anticipate a few minor hurdles along the way. We understand this change will require every homeowner to take some action. Please rest assured that we are fully committed to minimizing these issues and supporting you throughout the process. John McLaughlin has asked me to lead this transition, and this email marks our first step.

We will continue to keep the community updated as the transition progresses and will share detailed instructions as they become available.

Thank you,

Michael J. Petscavage III

Treasurer, CPA, Emeritus
