

Tradition at Willbrook Plantation Approved Siding and Stucco Colors

In the following pages in this document, you will find the colors that have been approved by the Board of Directors for use on your siding and stucco. In an attempt to ensure consistency in the color selection process, there is a sample of the color along with the associated name and number.

The ARB is now requiring that any application to paint stucco or apply siding must be submitted with the color code and name you intend to use. The only colors that will be approved will be those colors that are on the attached color palette.

These are Sherwin Williams Colors. You may use any paint manufacturer you wish but it must be a match to the Sherwin Williams color.

Note: Colors may vary. The color you view on your computer, tablet or phone, may be different from the actual color of the paint. If you plan to use a manufacturer other than Sherwin Williams, it is advised that you obtain a paint chip from the store before ordering your paint.

The ARB Application for a permit may be printed from the Tradition Home Page Or [HERE](#)
